## EXPERTS PLAN WAR AGAINST FRUIT-FLY PEST

WORK ON CLEAN-UP WHOLE CITY

# Story Of

The story of a murder, the hurling of a man over a cliff on the coast of Hawali and the carrying of his body out to sea appeared in a trial before a Hawaiian named Makaa, atteging a

murder was interjected into a case of partnership and alleged partnership and the comb's attorney Clem Quinn, claiming that there was a partnership agreement between his client and Management here. kan while the latter took an entirely different view of their relationship.

was when Titcomb was asked horse trade that he brought up the

"Makaa had told me he and another tom had thrown a Chinese over a cliff up in Hawail," he said, "and he then observed that he was afraid of being treated the same way and accordingly let things go,"

The reference to the murder on the witness stand did not seem to arouse comment in the courtroom and Makan did not appear to be a bit disturbed by the recital of a story wherein he was charged with claiming crefor having assisted in throwing a Chinese over a cliff.

# Any False

Be sure you know what the Mediterraneau ily attacks before you make a wholesale attack on the fly by fruit extermination.

On this one point the scientists agree, judging from the expressions of opinion made by the expects at the Inncheon given by President Gilmore of the College of Hawaii at the University Club this noon.

Beyond that point various differences of opinion develop. Director Wilcox of the Federal Experiment Station for instance says that it is impossible to wipe out the fly once it is established. B. O. Clark agrees with that. Mr. Higgins of the experiment station believes that the fly can be exterminated and it is the duty of people of Hawaii to call the attention of Congress to the seriousness of the situation and carry on the work by Federal means as it is a Federal question. Everyone agrees that millions of dollars will be required to

Meanwhile the quarantine of Callfornia will be continued until the ily reaches California.

Prof. Ehrhorn of the Board of Agriculture opened the discussion describing the fly and the devastation it has wrought in other countries. It has done tremendous damage in Australia, from which place it would appear the pest came to Hawnii. Mr. the alligator pear and so far as he knew not in the papain. He counseled that scientists could not speak with authority as to the fruits at tacked until a more careful study has

# CLEAN-UP

Clean-up Day idea. San Francisco has had some experience at the game the expectation of the promoters.

About a year after the big fire and earthquake, the Bay City was in a deplorable condition.

To mitigate these conditions was the incentive of the men and women behind that clean-up movement. Wamen are mentioned advisedly, for while there has not as yet been much evidence of the women of Honoluin work, in San Francisco the women
